

### Message from the Chairperson

*I am happy to know that Department of Food Technology of Shyama Prasad Mukherji College is organizing the International Conference on Contemporary Issues in Integrating Health and Nutrition with the Emerging Areas of Food Technology, Agriculture, Environment and Allied Sciences on 06. April. 2019. The theme of the conference integrates important issues of today. I believe that various topics of concern would be deliberated and some concrete solutions will emerge.*

*I congratulate the organizers and give my good wishes for the success of the conference.*

**Prof. Kavita Sharma  
Chairperson, Governing Body**

Shyama Prasad Mukherji College for Women,  
University of Delhi

## Principal's Message

*Shyama Prasad Mukherji College, has a glorious history of providing education and opportunities to gifted and talented young women since 1969. The College is celebrating its golden jubilee. The college motto "Tejaswi na Audhitam Astu" in Sanskrit has a profound meaning. It is derived from the Taittiriya Upanisad. It means - Let our efforts at learning be luminous (Tejaswi) and filled with joy, and endowed with the force of purpose (Audhitam Astu). It is a matter of great pride that the college has been following its motto and has grown into a centre of excellence over the years.*

*To mark the Golden Jubilee Year, an International conference on a very relevant topic "Contemporary Issues in Integrating Health and Nutrition with the Emerging Areas of Food Technology, Agriculture, Environment and Allied Sciences -2019" is being organized to provide a forum for bringing up academicians, industrialists and students to present the various topics of concern the world has been facing, especially in the past decade.*

*Wishing success to the organizing team.*

  
Dr. (Mrs.) Sadhna Sharma  
Principal (Officiating)

Shyama Prasad Mukherji College for Women,  
University of Delhi

## Message

Current condition in the world find individuals and families facing unprecedented challenges created through economic, social, health, and environmental changes. As a professional, we will always be presented with new opportunities to direct our professional practice to the resolution of the everyday problems of living on our fragile planet.

In line with the notion of the conference theme “*Contemporary Issues in Integrating Health and Nutrition with the Emerging Areas of Food Technology, Agriculture, Environment and Allied Sciences -2019*” is highly relevant to the current needs. I am sure that deliberations of the conference shall be very helpful and enriching.

I wish Shyama Prasad Mukherji college and Department of Food Technology of the college continued success.

*Message*

I am happy to know that **Shyama Prasad Mukherji College for Women, Delhi University** is organizing an "**International Conference on Contemporary Issues in Integrating Health and Nutrition with the Emerging Areas of Food Technology, Agriculture, Environment and Allied Sciences – 2019**" on April 06, 2019. The core themes of Conference are relevant to human development and economy. Moreover, these issues also have significance bearing on the role of women in societal and economic development of any country. I hope during this Conference issues related to environment and women health will be deliberated upon keeping in view environmental pollution in the outdoor and indoor environment and occupational hazards of environmental pollutants.

I wish all the best to the very energetic team of Organizers for success of this Conference.

**MESSAGE**

I am pleased that the Shyama Prasad Mukherji College for Women of Delhi University is completing 50 glorious years and organising this International Conference on Contemporary issues.

Human health, food, nutrition and a healthy environment are the key factors responsible for a nation's growth. While India has made significant achievements since independence in the agriculture and food sector, it is important that scientific advances made are further translated efficiently for developing products such as genetically engineered or genome edited crops/hi-tech seeds needed for feeding the ever-growing population and a clean healthy environment. Besides, India is a party to meeting the Sustainable Development Goals (SDGs) by 2030. An enabling policy environment is need of the hour to support developing more nutritious crops and foods, better environmental health and more economic profitability in the coming decades.

I congratulate the organisers and wish them all success.

### MESSAGE

I am glad to learn that Shyama Prasad Mukherjee College for Women, Delhi University is organizing an International Conference on contemporary issues in Integrating Health and Nutrition with the Emerging Areas of Food Technology, Agriculture, Environment and Allied Sciences – 2019 on 06-04-2019. The themes of the Conference are very concerned to the contemporary issues facing mankind today. In addition to that issues raised through this conference will also address gender issues and role of women in environment and inclusive economic development. I am sure that this conference will deliberate upon the issues of food, energy and environmental security in view of the environmental crisis facing society today.

I wish all the best to the organizers and organizing team of the conference to make it a great success.

(Prof. N. C. Gupta)  
Dean, USEM
