1. City					
2. District Headquarter					
3. Sub division Town					
4. Other Nearest City					

## ANNEXURE I

---

### 17. Management orientation:

What is your opinion about the following statements? Please state the degree of your agreement or disagreement to each of the statement given below :-

Sl no.	Statements	Strongly Agree(5)	Agree (4)	Undecided(3)	Disagree (2)	Strongly disagree (1)
A.	Planning orientation:					
	Each year one should think afresh about the crops to be cultivated in each type of land. i) It is not necessary to make prior discussion about the variety of crop to be cultivated. ii) The amount of seed, fertilizer and plant protection chemicals needed for raising a crop should be assessed before cultivation. iii) It is not necessary to ahead of the cost involved in raising a crop. iv) One need not consult an agricultural expert for crop planning. v) It is possible to increase the yield through farm production plan.					
B.	Production orientation:					

	<ul style="list-style-type: none"> <li>i) Timely planning of crop ensure good yield.</li> <li>ii) One should use as much fertilizers as he likes.</li> <li>iii) Determining fertilizers dose by soil testing saves money.</li> <li>iv) Seed rate should be given as recommended by the specialists.</li> <li>v) For timely weed control one should even use suitable herbicides.</li> <li>vi) With low water rates one should use as much irrigation water as available.</li> </ul>					
C.	Marketing orientation:					
	<ul style="list-style-type: none"> <li>i) Market news is not so useful to a farmer.</li> <li>ii) A farmer can get good price by grading his produce.</li> <li>iii) Warehouses can help the farmer to get better price of his produce.</li> <li>iv) One should sell his produce to the nearest market irrespective of prices.</li> <li>v) One should purchase his inputs from the shop. Where his other relatives purchase.</li> <li>vi) One should grow those crops, which have more market demand.</li> </ul>					
	<b>Total</b>
